

Navy Regional Maintenance Center

Kevin Hill, Deputy Director

July 25, 2022

Mission and Vision

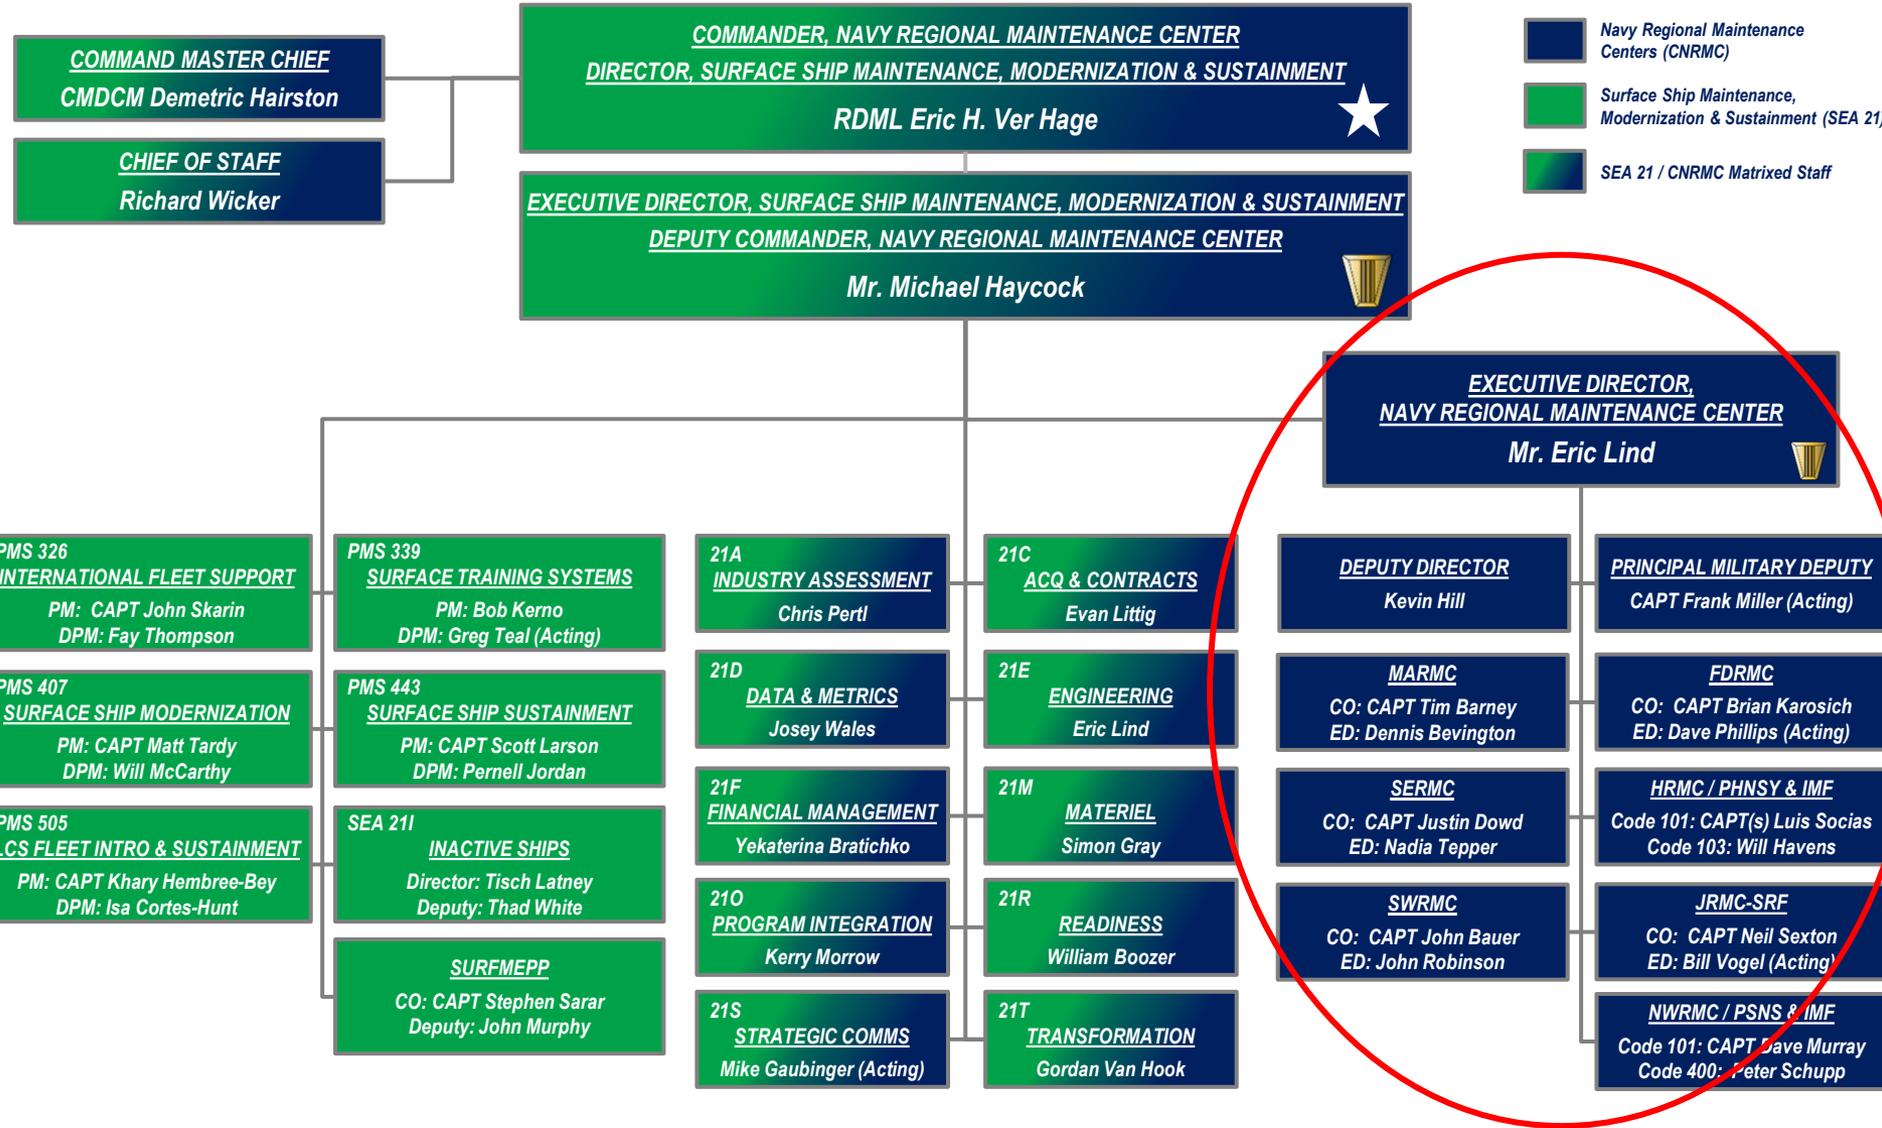

Mission

"We deliver quality cost-wise material readiness to support U.S. Naval Forces worldwide."

Vision

"We are the Navy's leader and trusted partner for execution of quality maintenance and modernization of our ships."

Where We Are

● Regional Maintenance Centers / Detachment Sites

★ SEA 21 Presence

■ Foreign Military Sales

■ CONUS Ship Repair Yards

PMS 339: AEGIS Ashore Support (Poland / Romania, Norfolk, San Diego)

PMS 407: PMR and CG/LSD Phased Mod Support (Spain, Bahrain, Japan, WA, San Diego, Norfolk, Mayport)

PMS 443: Logistics, IRAT Support, TYCOM and ESG Liaisons (Spain, Bahrain, Japan, Pearl Harbor, San Diego, Norfolk, Mayport)

Inactive Ships (SEA 21I): Inactive ship maintenance, preservation and oversight (Bremerton, Pearl Harbor, Philadelphia, Portsmouth)

CNRMC ensures material readiness and warfighting capability of the U.S. Navy Surface Fleet through coordination and execution oversight of depot- and intermediate-level maintenance and modernization.

Contract Management and Oversight (CMO)

RMCs are the Naval Supervisory Authority (NSA) for depot level maintenance accomplished by private shipyards. RMC efforts include advanced planning, work item development, contracting, project management, work oversight and work certification.

Fleet Technical Assistance (FTA)

RMCs provides FTAs upon request when ships are unable to resolve equipment or software deficiencies. FTA provides over the shoulder technical assistance and guidance to ship's force personnel to identify and resolve issues and to provide training in an effort to increase the self-sufficiency of ship's force technicians.

Total Ship Readiness Assessments (TSRA)

RMCs execute the TSRA program as part of the broader material assessment program to manage all mandatory periodic life cycle assessments and inspections, embracing the motto, "Find, Fix, Train".

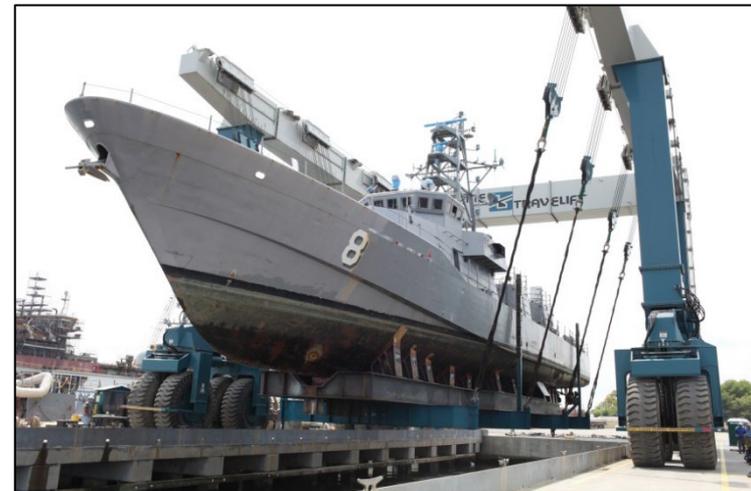

Intermediate Level Maintenance (I-Level)

I-Level maintenance consists of work package planning, parts procurement, execution and work package closeout. Maintenance Assist Teams assist ship's force in accomplishing PMS and assessing material readiness. Sailors achieve qualifications that range from basic 3M and Quality Assurance Craftsman through more extensive Journeyman qualifications. The Navy Afloat Maintenance Training Strategy program is designed to train Sailors on advanced skills and obtain Navy Enlistment Codes that will enable them to return to the fleet as a subject matter expert.

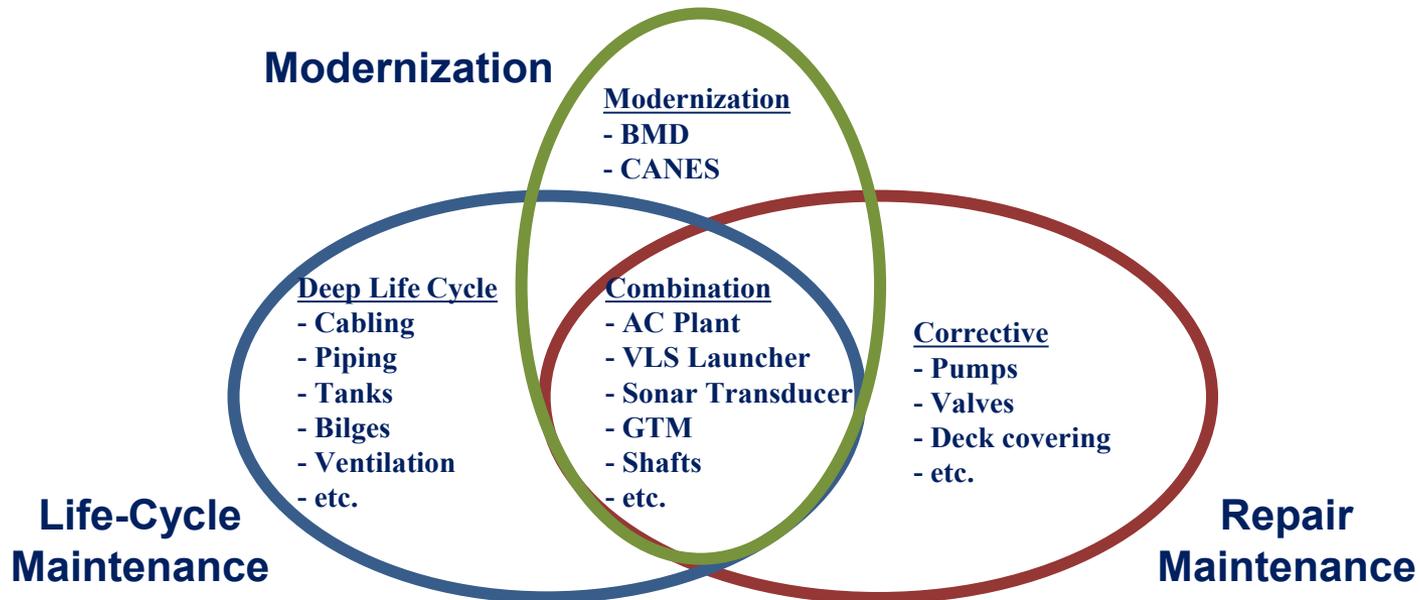

Three levels

- Organizational: Ship's Force
- Intermediate: Regional Maintenance Centers and Submarine Tenders
 - Depot: Shipyards

• Depot maintenance includes:

- **Scheduled CNO availabilities:** Combination of repair maintenance, life-cycle maintenance, and modernization
- **Continuous Maintenance (CM):** Depot-level maintenance performed outside of scheduled CNO availabilities
 - (U) For ships to remain relevant, deployment-ready, and able to reach their expected service life (ESL), they must receive the right combination of modernization, repair maintenance, and life-cycle maintenance.

Execution Contract Status

Pacific Northwest

- **Complex Lot I FY18**
 - General Dynamics NASSCO
 - Pacific Ship Repair
 - Vigor

• Non Complex Lot II (SBSA) FY18

SEA 21 Mission Overview

SEA 21 integrates sustainment and maintenance strategies, modernization plans, training needs, and technical, logistics, and programmatic efforts to best manage the lifecycle of U.S. and partner Navy surface ships and systems from fleet introduction through transfer or disposal.

International Fleet Support (PMS 326)

Provides support and follow-on technical assistance to foreign navies and coast guards, including management of the ship transfer process, ensuring effective and efficient execution of surface ship foreign military sales.

Surface Training Systems Program Office (PMS 339)

Leads and integrates planning, policy, acquisition, lifecycle management, research and development and technical insertion of existing and future surface training systems.

Surface Ship Modernization Program Office (PMS 407)

Leads and integrates policy, planning and execution of surface ship modernization through oversight of advanced planning of availabilities, integration of new technologies, and planning yard functions.

Surface Ship Readiness and Sustainment Program Office (PMS 443)

Provides lifecycle management, enabling surface ships to maintain operational readiness and sustain warfighting capability throughout their service life through development of programmatic, logistical, technical and engineering services and products.

LCS Fleet Introduction & Sustainment (PMS 505)

Integrates ship and mission package fleet introduction, logistics, training, modernization and maintenance strategies to deliver and sustain LCS combat capability to the fleet

Inactive Ships Directorate (SEA 211)

Manages the inactivation, storage, and disposal of conventionally powered U.S. Navy ships and craft that have reached the end of their service life.

Surface Ship Maintenance Engineering Planning Program (SURFMEPP)

Provides centralized lifecycle maintenance engineering, class maintenance and modernization planning, and manages maintenance strategies, ensuring all surface ships have an articulated, technically rigorous and engineered maintenance oversight process to achieve expected service life.

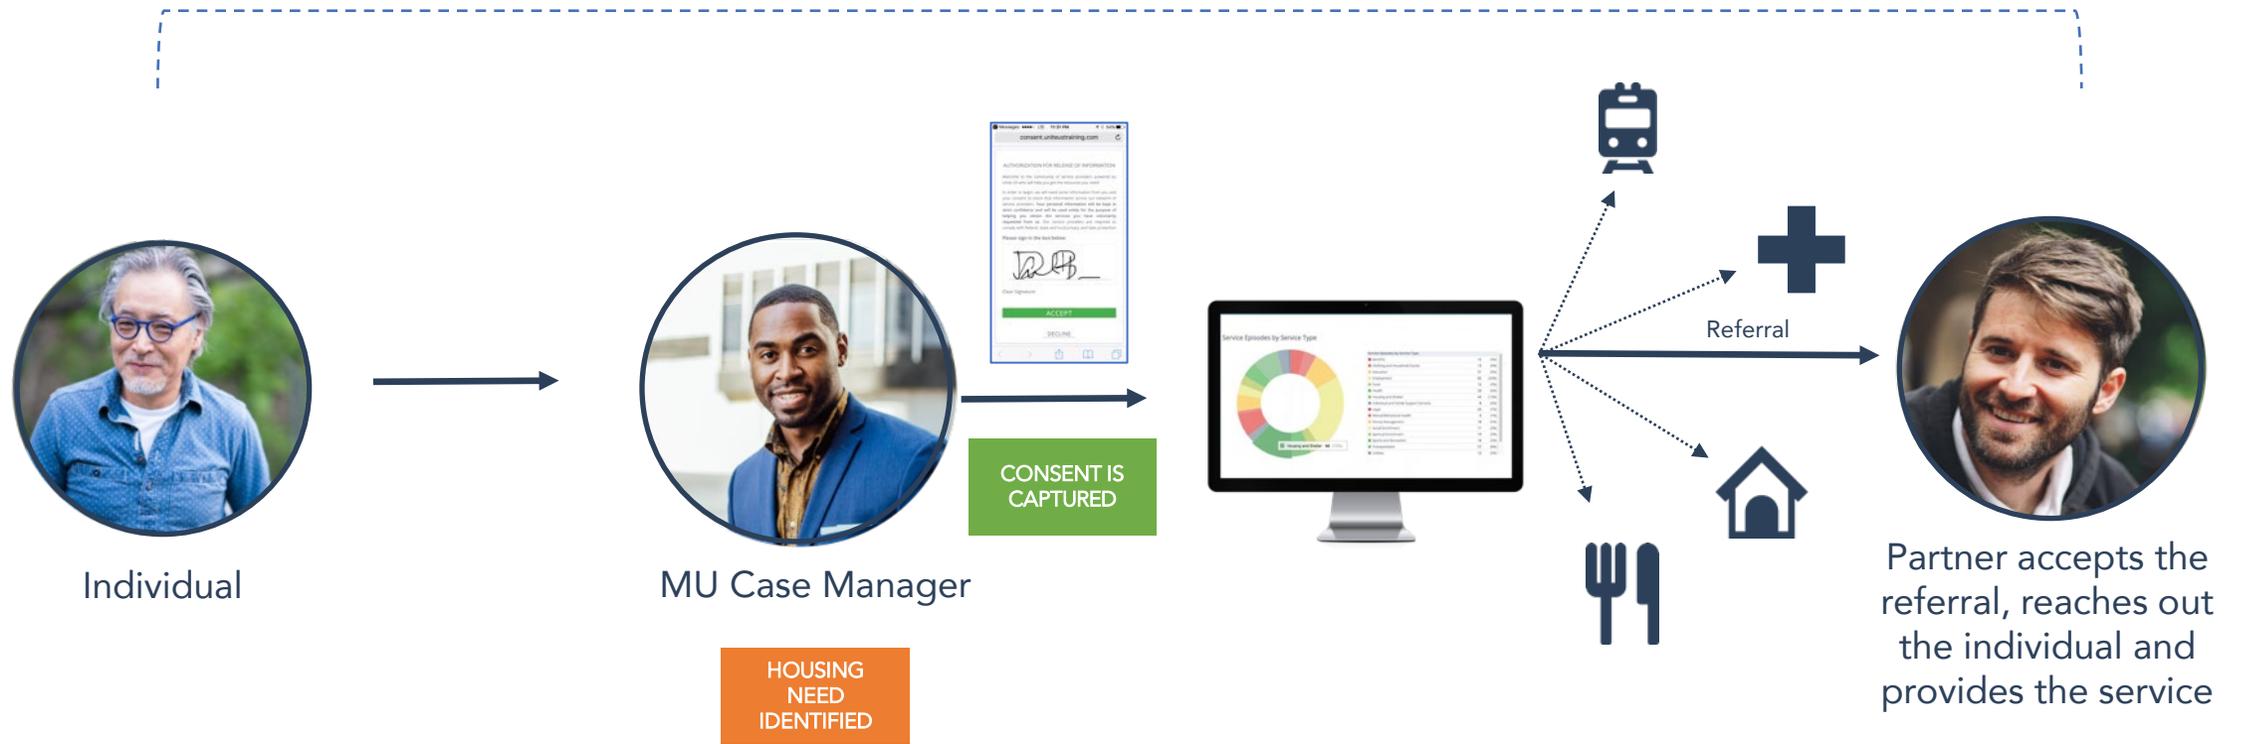

United Way of
South Hampton Roads

Mission United

- Established in 2016
- Connects veterans, active-duty military members and their families to the community resources they need
- Instead of having to navigate a complex web of disconnected services, members of the military community simply need to reach out once to the Mission United team.
- A trained team member will assess the need and take action to find the right solution – or solutions.

How does it work?

Why Mission United?

- Service providers are fragmented
- Individuals experience difficulty in navigating available resources
- When more than one agency/organization is needed the Veteran often has to find it – and, if found he/she must repeat their story, information/paperwork.

Financial Assistance

- Mission United can assist with direct financial needs in limited circumstances
 - An individual must provide documentation of military service and need for financial assistance
 - Rent, mortgage, utilities
- 2022 YTD, MU has provided a total of \$40,499.90 in direct financial assistance to 49 individuals

Eligibility

- Active-duty service members from all five branches, including the Reserves and National Guard
- Military spouses, dependents and caregivers
- Veterans of any era with any discharge
- Documentation
 - Armed Forces ID Card
 - Veteran ID Card
 - Retiree ID Card
 - DD214

10.5% of Virginia's adult population are veterans of the US Military*
